

TeleMedicine

Healthcare *Virtually* Anywhere

Healthcare Virtually Anywhere.

A “telemedicine” visit is just like a regular medical appointment, except that you interact with your provider using the Internet and your own smart phone, tablet or computer.

Convenient. Patients can avoid the inconvenience and time of traveling to our physical location for an in office visit.

Advantages For TeleMedicine Patients

- No transportation time or costs**
- No need to take time off of work**
- On-demand options...**
- Access to Pain Specialist Providers**
- Less Risk of exposure for illness**
- Less Time in the Waiting Room**
- Convenience**
- Less Cost**

❖ When you first log into the virtual waiting room, you will see a text: "This is a reminder that our telehealth appointment meeting is on *date at time*". Just click on this link to my virtual waiting room.

PSSO.doxy.me

- ❖ Must use Safari, Google Chrome or Firefox in web browser
- ❖ The first time you attend appt. meeting you need to give your browser permission to use your camera and microphone. A welcome check in box appears to enter your name to our virtual waiting room. The provider will start the call when they are ready.
- ❖ Supported by mobile devices, android and IOS.
- ❖ Accessible from everywhere, your desktop, tablet and Smart-phone

TeleMedicine

Easy-to-Use. A TeleMedicine visit is easy by online or smartphone access

1 Make an Appointment

Call us at **(541) 779-5228** to make a reservation. After verifying that a Telemedicine visit is right for you, our pain care team will arrange a time-slot with a provider.

2 Click on the Link

Log into your Internet browser on your device, PSSO.doxy.me Check in with your name when prompted. The private session begins when the pain care team/provider joins in.

Affordable. There is a simple, flat fee for each TeleMedicine visit. Much less than an in-office visit, payment is made during the virtual check-in process at the scheduled appointment time. Check with us for the current fee.

Frequently Asked Questions

How do I know if a TeleMedicine visit is right for me?

The number of situations appropriate for a TeleMedicine visit is too long to list here. Call our office to determine the right type of appointment for your particular case.

Do I need any special equipment? No. All you need is an Internet connection, an email account, and any one of the following devices: Smart-phone, iPad or Android Tablet, or Personal Computer. If using a computer, be sure it has a webcam, speaker, and microphone (or headset). The first time you use the service, you'll be asked to install a browser plug-in. After that, it's just click and connect.

How is my privacy protected? Your medical practitioner conducts all visits in an enclosed medical suite. In addition, we use specialized security software for the two-way video conference. This ensures your information and conversation is kept private and confidential.

Will insurance pay? Unfortunately, many insurance plans do not yet reimburse patients for charges associated with TeleMedicine appointments. Contact a representative of your plan to inquire.
